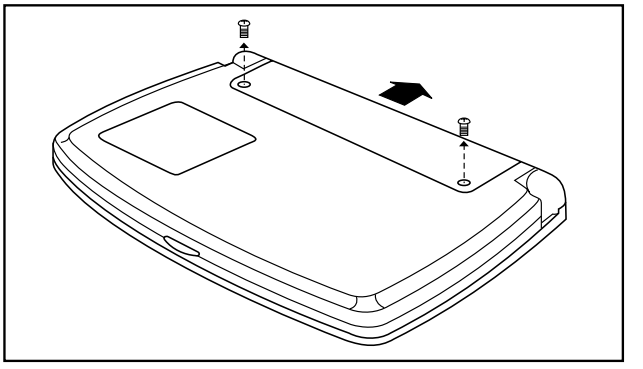
How to Change the Batteries Without Losing Your Stuff

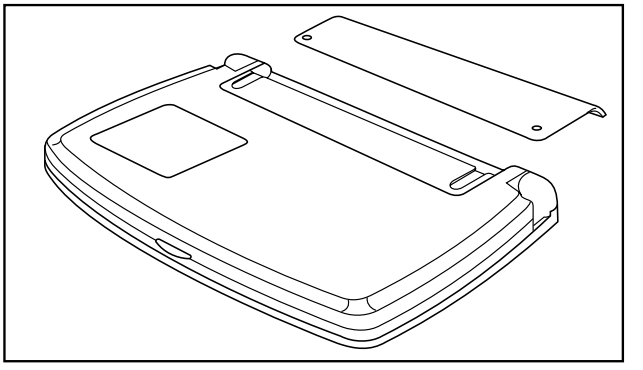
The Clueless Organizer has main batteries and a backup battery. The main batteries are two "AAA" batteries that must be installed before you can use your Clueless Organizer. The backup battery is a CR2032 “button cell” battery about the size of a nickel. It provides power to hold your information if the "AAA" batteries discharge completely.
NEVER REMOVE ALL OF THE BATTERIES OR ALL OF YOUR INFORMATION WILL BE ERASED!

Replacing the Main Batteries

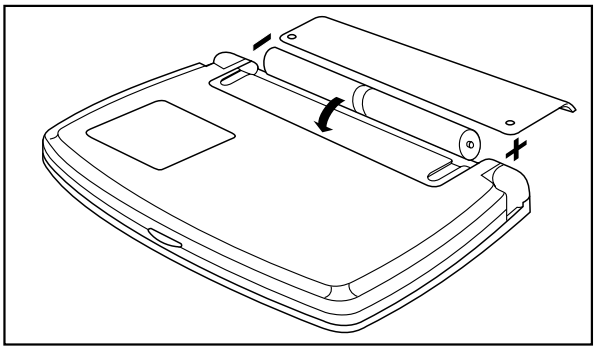
With your parents' help, open the battery compartment door using a Phillips screwdriver.



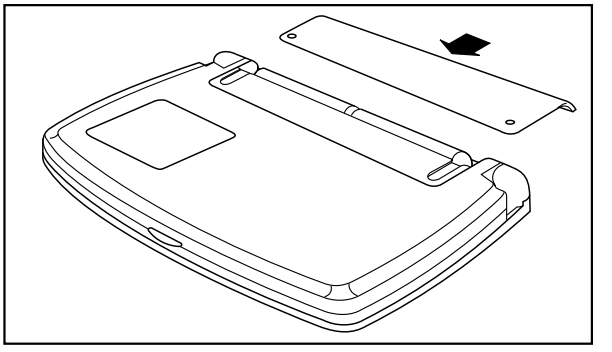
Slide open the cover to expose the "AAA" battery compartment.



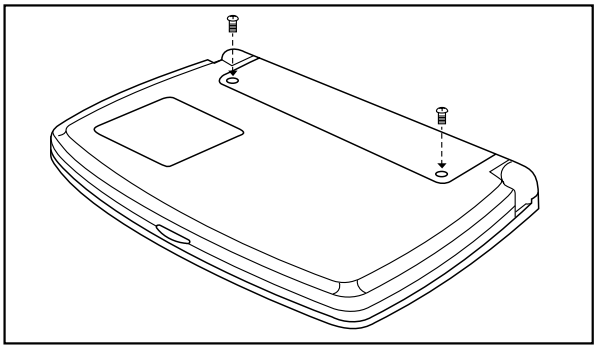
Load the batteries, making sure the +'s and -'s line up.



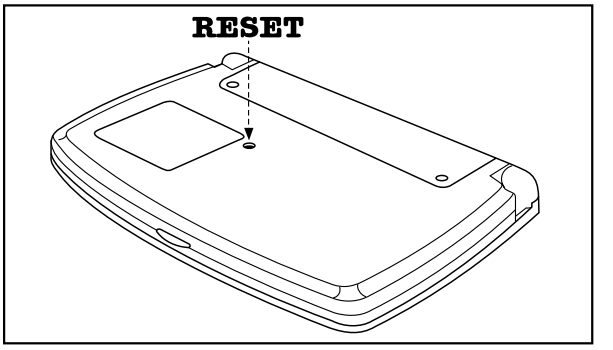
Slide the cover closed ....



....and replace the screws to complete the installation.



You MUST press RESET before initial use and after replacing batteries.



TO ENSURE PROPER FUNCTION :

DO NOT MIX OLD AND NEW BATTERIES

DO NOT MIX ALKALINE, STANDARD OR RECHARGEABLE BATTERIES.

BATTERY INSTALLATION SHOULD BE DONE BY AN ADULT.

ONLY BATTERIES OF THE SAME OR EQUIVALENT TYPE AS RECOMMENDED ARE TO BE USED.

BATTERIES ARE TO BE INSERTED WITH THE CORRECT POLARITY.

EXHAUSTED BATTERIES ARE TO BE REMOVED FROM THE TOY.

THE SUPPLY TERMINALS ARE NOT TO BE SHORT-CIRCUITED.
